Detailed Action

1. The following action is the result of a reevaluation of claims 1-8, taken with applicant's amendment filed 04/05/05. The examiner regrets any inconvenience caused by this action.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 4-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 4, this claim further defines elements and positions set forth in the intended use phrase in the preamble. However, these elements and positions are not claimed rendering claim 4 indefinite. Claim 4 should be deleted or claim 1 redrafted to positively include the article and positions.

Regarding claim 5, this claim sets forth a method of providing a parallel motion to an article but no steps are recited which move an article. The claim is thus incomplete.

4. Claims 1-3 are allowed.

5. Any inquiry concerning this communication should be directed to D. Underwood at telephone number 571-272-6933.
